Acting as a subcontractor to Fermata, Inc., Ghostwriters Communications worked with the Pennsylvania Lumber Heritage Corp., the regional planning commission, PA DCNR, community leaders, and local resource experts to develop a detailed thematic framework and interpretive plan for the nature, history and culture of the 2 million acre state-designated Heritage Area in Northcentral Pennsylvania. GWC's staff led numerous stakeholder involvement meetings and compiled comments to create this plan that has resulted in remarkable unification and coordination of efforts across the large and diverse area.
